“ QUALITY IS OUR  
**BUSINESS**  
PLAN ”

# DIRECTOR'S MESSAGE:

First of all I would express how proud I am of my all team as family, making ADVANCE CONCRETE SOLUTIONS such a great organization and such an enjoyable place to work and achieve many targets of successes.

Our company main focus is to provide quality ready mix to our valuable clients into the market. Our business can be divided into four parts

- 1) Quality
- 2) Quantity
- 3) Competitive Rates
- 4) Time efficient

In addition to fulfill our Social responsibilities, the Company and its Employees are targeting to provide Professional Services to our Individual & Corporate client's full satisfaction and professional needs.

JAFFAR HUSSAIN AWAN  
Managing Director

# About ADVANCE CONCRETE SOLUTIONS

ADVANCE CONCRETE SOLUTIONS has been committed to produce quality ready mix concrete for the construction industry of Pakistan.

We own up to date equipments that needed to produce best quality concrete to the corporate customers. Our Project Manager, Quality Control Manager, Plant Managers, Civil Engineers, Material Engineers Plant Operators, Drivers and Skilled Labours are our strength and valuable work force.

ADVANCE CONCRETE SOLUTIONS committed to carried compliance test periodically to Guaranteed constant and quality concrete product to our valuable customers. Our highly professional and skilled engineers adopting new methodology for efficient output in minimum time and less cost.

Concrete Quality

The speed of construction

No storage hassles

Low Labour Requirements

Less Wastage

**Providing the best  
Quality Concrete**

## OUR TEAM

At Advance Concrete Solutions, we take immense pride in our exceptional team of professionals who make every concrete pumping project a success. With years of experience, unwavering commitment, and a passion for excellence, our team stands as the backbone of our operations.

Together, we're not just a team; we're a family united by a common goal - delivering top-quality concrete pumping solutions that exceed expectations. We believe in teamwork, safety, and precision, making us your trusted partner in concrete pumping.

**WAQAR AHMED AWAN**

Managing Director ACS

He has inception and influential in the success of the company, with his experience in past years setting examples in the Constructions & Ready mix industries.

**SAIFAL RAZA**

Managing Director ACS

With his diverse experience in the industry & in the depth understanding of the corporate operations, Advance Concrete achieved its long term growth objective.

# VISION

Advance Concrete Solutions is highly committed to participate in the Development & Prosperity of Pakistan's Premium & Mega Construction Projects and Housing Societies by providing high quality ready mix concrete. the development & prosperity of the Pakistan's premium & mega projects and Housing Societies by providing quality ready mix concrete.

# MISSION

1. Is to provide mix concrete to the construction industries of Pakistan, As in other developed countries are being using the ready mix concrete.
2. High quality concrete as a bench mark set by American and British construction industries adopted.
3. Always make sure to sustain zero complaint status for their service and product quality.
4. Is to work with the updated research & technology.
5. Is to offer competitive rates for Ready Mix Concrete.

# OUR VALUES

## BEST QUALITY

We maintain our customer's trust by delivering the best quality products which meet their expectations and set us apart in the market

## TEAM WORK

We value our people above everything else. We are committed to their development and to appreciate their contribution.

## CONTINUOUS IMPROVEMENT

We will never stop striving to make everything better than before in order to enhance stakeholder experience.

## CUSTOMER SERVICE

We will deliver the best possible experience to our customers by exceeding their expectations and keeping our promises.

## SELF DISCIPLINE

Everyone has the right and responsibility to do what is right even when the rule is not there

# ADVANTAGES OF READY MIX CONCRETE

## WHAT IS READY MIX CONCRETE?

Ready-mix concrete (RMC) is concrete that is manufactured in a batch plant, according to a set engineered mix design & delivered at the work site by using transit mixer. Ready-mixed concrete is used in construction projects where the construction site is not willing, or is unable, to mix concrete on-site

Ready-mix concrete is bought and sold by volume – usually expressed in cubic meters (cubic yards in the US). Batching and mixing is done under controlled conditions

Ready mix concrete factory was first built around 1930s and gained its boom, after 1960s it has grown up with modern technology and methodology.

## WHAT IS CONCRETE PSI?

PSI Pounds per square inch measures the compressive strength of concrete. A higher psi means a given concrete mixture is strong

The biggest advantage is that concrete is produced under controlled conditions. Therefore, Quality concrete is obtained, as a ready-mix concrete mix plant makes use of sophisticated equipment and consistent methods.

Better handling and proper mixing practice will help reduce the consumption of cement by 10 – 12%.

Ready mix concrete manufacture have less dependency on human labours

Safe Delivery without strength loss

Speed in the construction practices followed in ready mix concrete plant is followed continuously by having mechanized operations.

# HIGH STRENGTH CONCRETE

Today high-strength concrete is defined as concrete with a specified compressive strength of (6000 psi) or higher produced with special mix design using super plasticizers and micro silica sand. Such type of concrete is the new type of concrete in Pakistan construction industry and would reduce the columns and other structural elements.

# CRUSHERS QUARRIES

Advance Concrete Solutions ready mix concrete is prepared using aggregates brought from our own quarries & crushers, ensuring its gradation & quality.

Our plant uses screened sand bringing directly from the source by using dumpers with free from phosphates, organic matters & clay, which are detrimental to concrete.

# OUR PRODUCTS

The ideal concrete psi for a given project depends on various factors, but the bare minimum for any project usually starts around 2,500 to 3,000 psi. Each concrete structure has a normally acceptable psi range.

ACS is following American & British strength ranging from 1000 PSI to 10,000 PSI with guaranteed consistency & strength.

# TEMPERATURE CONTROL CONCRETING

We are well prepared to provide temperature controlled concreting. With our team of qualified personnel and experience, ACS continued to conduct extensive research to meet the customer's requirement.

# RANGE OF CONCRETE

CONCRETE TYPE	C-0	C-15	C-20	C-25	C-30	C-35	C-40	C-45	C-50	C-55	C-60
CUBICAL STRENGTH (PSI)	1000	2000	3000	3600	4500	5000	6000	6500	7000	8000	8500
CYLINDRICAL STRENGTH (PSI)	750	1800	2500	3000	3500	4000	4500	5000	5500	6000	7000

Note: Above all strength are rounded off in hundreds

ADVANTAGE TYPE	SITEMIX	READY MIX
Quality	Fair	Excellent
Wastage Labour	4% - 7%	Nil
Space for Raw Material	Required	Nil
Time Required for Concreting	100%	Reduced by 70%
Time for Raw Material Storage	2-4 Days	Nil
Environment Impact	Unfavourable	Favourable
High Strength Concrete	Not Possible	Possible
Aggregates Sand/ Crush	Unsuitable	Graded/ Screened

## **QUALITY ASSURANCE**

ACS always focus on quality of ready mix providing to its client to ensure this we have lab at the ACS site and conducting the various test of concrete ready mix design as per client requirements and Further as per client requirement we have conducting the cylinder testing with different labs to ensure the strength of ACS concrete mix design.

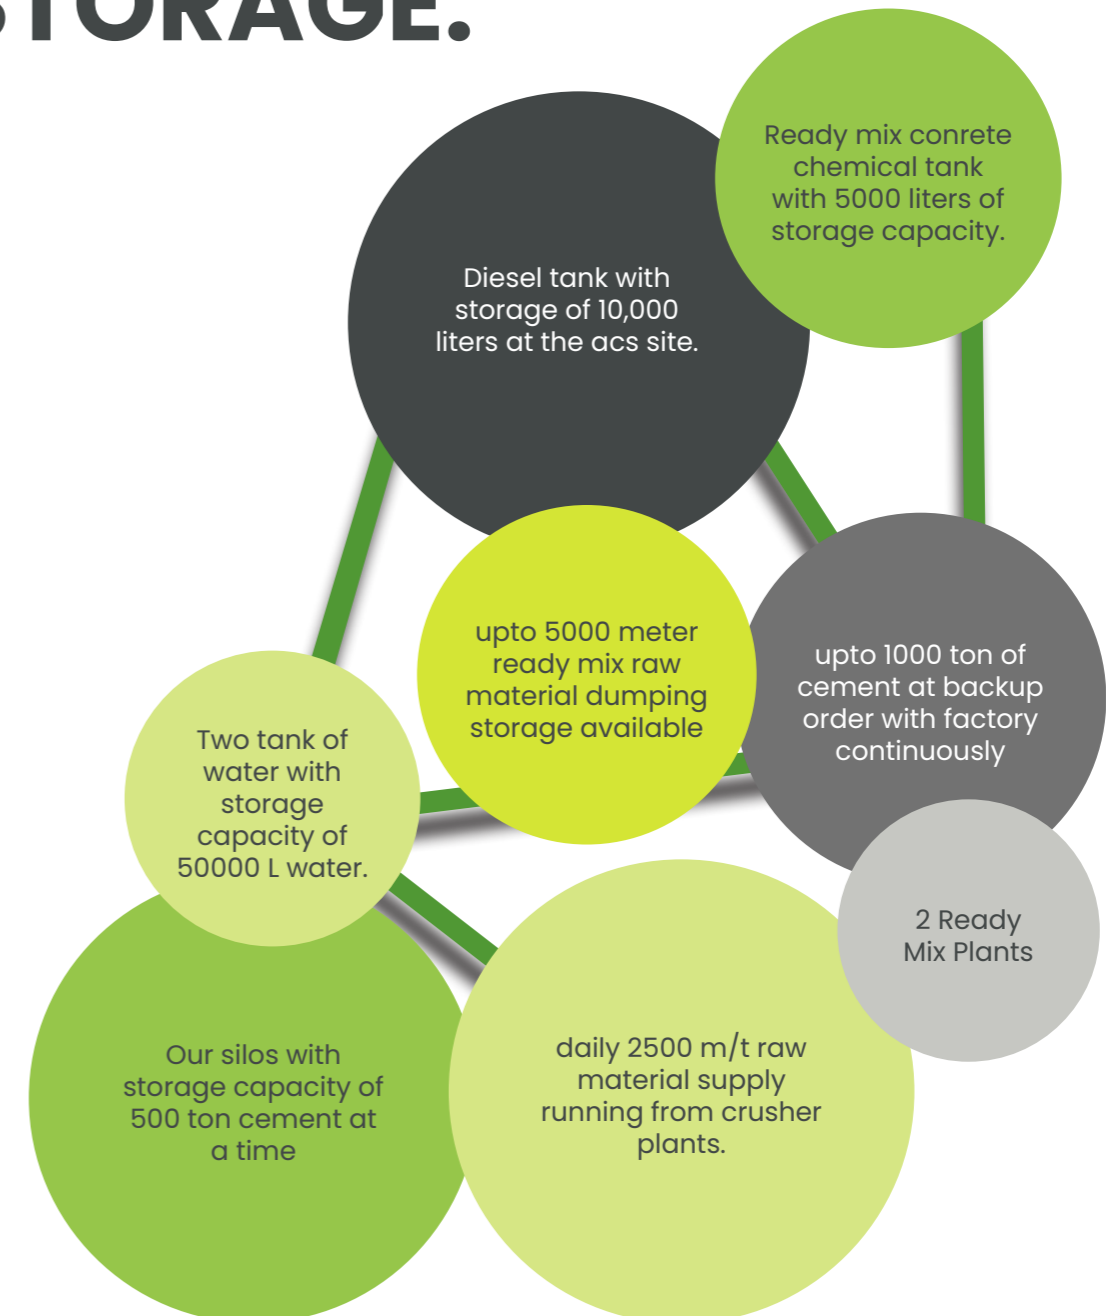

# POWER:

1 Caterpillar generators with an output capacity of 250 KVA

2nd generator is cominso with and output of 250 KVA capacity.

# STORAGE:

# ACS LABORATORY ARE EQUIPPED WITH:

**SIEVE SHAKER**

**LOW ANGLER  
MACHINE**

**COMPRESSIONS  
TEST MACHINE**

**SLUMP CONE**

**UNIT WEIGHT  
MEASURE**

**500 ML MEASURING  
CYLINDER**

**SPECIFIC GRAVITY**

**TM MIX MACHINE**

**OVENS**

Our Ready Mix plants at site,  
with capacity of 2 CUBIC  
METER, works simultaneously

## Embracing New Beginnings: in New Metro City, Gujjar Khan

# CONCRETE PUMP

We are fully equipped with 4 types of concrete pumps

**37**  
METER

**48**  
METER

**53**  
METER

## STATIONRY PUMP

# TRANSIT MIXERS

We are always ready with 20 Transit Mixer to deliver the Maximum limit of concrete at any site. The operation must be in control and smooth.

## 3 LOADER

for smooth operation control and client's requirement fulfillment.

## MANAGEMENT & CONTROL

ACS vision is always quality and quantity ready mix delivery to their customer at market competitive rates to ensure this we have more than 60 employees working in multiple shifts to control the plant operation and client requirement. These the are professional people who are fully trained and professional dealing all the operation.
